Fiesta Race Header

We developed the ultimate Fiesta header for IT and GT class racers. These headers feature equal length- mandrel bent primary tubing (1.5 diameter), single piece flange, slip-on merge collector to 2" outlet. When tested, this design shows a clear 5-7 hp advantage over all other headers available for the Fiesta. In racing, where 5 hp can cost a thousand dollars, \$289.00 is very little to ask.

Euro H4 Head Lamp

Anyone that has had the pleasure of driving at night with E-code lamps will never go back to sealed beams. At this price every one can afford to upgrade to these high quality 7" round head lamps which feature high grade optics and reflectors. Bulb (H4 55/60 watt) included.

Master & Wheel Cylinders

Fiestas are known for going through brake components, especially hydraulics. Master cylinders only seem to last a couple of years and wheel cylinders even less. Fortunately we have a great deal on both. Get a new manual, or power, master cylinder for 50% off our \$85.00 regular price and buy one get one free (save 50%) on wheel cylinders at 2 for \$15.00.

Ignition Wire Set

Here's a deal on quality 8mm silicone ignition wires that everyone can afford. Regularly priced at \$29.00 a set, our special is only \$9.50. Sets include custom length primary wires (4) and coil wire (1) in blue color.

Brake Shoe Set

Rear shoes often offer little stopping assistance when they are worn. They also work poorly when drenched with brake fluid (from the always faulty wheel cylinders). Here is a 50% off deal on a new quality set of bonded brake shoes.

Fram Oil Filter

We recently picked up a quantity of Fram Oil Filters for the Fiesta. Fortunately, these are the older "made in USA" versions - not the current chain-store China made Fram crapola. We have 50, or so, available.

Front Brake Hoses

At this point in time, all Fiestas need new brake hoses and for \$7.50 a pair you can't afford not to replace the old ones. For a limited time, we will also include a pair with our C420SPL front brake special (rotors, pads, calipers and brake hoses) \$199.00.

Goodyear Gatorback Belt

Good-deal on Goodyear. Accessory drive belt (crank/waterpump/alternator) in the grippy Gatorback version - also made in USA. We have 30, or so, available.

Sport Springs

We can supply a range of higher rate, lower ride height springs for the Fiesta. Depending on desired use, springs can be installed either front or rear and will likely need to be trimmed to match ride heights. Select from the following rates and free length. *9.5" springs are similar to standard ride height but higher rate (firmer).*

Springs (2) 8.5" x 150#
