

Plumbing Clearance Items

Red/Blue hose end clearance. We recently purchased a plumbing inventory from a performance shop that was going out of business. These are brand new "cutter" type swivel hose ends for use with traditional braided steel hose. A few are XRP brand, some are "G" marked (Goodridge), most have no logo's but look the same as the "G" marked hose ends. We got a great deal on these and can pass along less than wholesale pricing to anyone interested. Quantities are limited to stock on hand - all sales are final.

Braided Hose Scrap Sale

Selling bulk lengths of hose, rather than pre-cut lengths, means we wind up with odd length remnants. If you have a use for short lengths, here's your chance to save 25% on AQP stainless braid hose. When ordering, make sure to tell us that you are looking for short lengths and you want the special price as listed here. Price only applies to lengths of 3 foot or less, but can be combined (i.e.: ordering 9 feet as 3 x 3 foot sections).

-6 size	FC3-6	\$3.80 foot (regularly 5.05)
-8 size	FC3-8	\$4.40 foot (regularly 5.85)
-10 size	FC3-10	\$4.90 foot (regularly 6.50)
-12 size	FC3-12	\$5.80 foot (regularly 7.75)

Plumbing Clearance Items

Aeroquip Starlite Hose

This is the first generation AQP Starlite lightweight hose. Hose is blue in color (similar to current socketless blue color) with white paint stripe and part number designation (example: FBU-####). Use with either crimp or standard taper type hose ends. Not quite as light or flexible as the current black AQP Starlite hose, but the price is surely attractive at up to 75% off.
